with Sean Buchanan***

WARNING: This session features evidence-based strategies that will improve student behavior and increase test scores. Join Sean Buchanan's fast-paced (and funny) keynote, full of stories and solutions for reaching students and parents who may be apathetic in their outlook toward education, struggle with discipline issues, or lack motivation. Mr. Buchanan explores specific alternatives to common consequences; dives deeper into the role educators play in providing motivation to boost student performance; and explains the role of internal motivation of adults in the education process. Finally, he underscores the impact of relationships in the achievement process and why T.L.C. is the glue that keeps it all together.

**About the Presenter:** Sean Buchanan is an author, international speaker, consultant, and public-school superintendent. He has become a leading expert in forming connections with and motivating educators through leveraging the power of human connection.
